

COVID Home Testing Kits

If you are over 18 years old, you can collect a home testing kit from a local collection point, or order online.

You can collect home testing kits at local collection points.

Most collection points are open from 1.30pm to 7pm. You can check online if the location is open or busy before you go. You do not need to make an appointment. You can pick up 2 packs of home test kits. Each pack contains seven tests.

Do not visit a collection point outside of the opening hours, as it may be used to test people who are showing coronavirus symptoms.

[Find your nearest home test kit collection point.](#)

EASTBOURNE
Devonshire Park
80 College Road, BN21 4JJ
1:30pm - 7:00pm

HAILSHAM
South Road Car Park
South Road, BN27 2AU
1:30pm - 7:00pm

You can order home test kits online.

If you cannot get tested at your workplace, you are unable to go to a test site or collect test kits, you can order a home test kit online.

As a student of ESCG, make sure you select 'yes' when prompted if any people in your household or bubble attend or work in a school.

Do not order online if you can get a test via one of the local collection points. This frees up home delivery for those who need it most.

What twice-weekly testing involves

You will be asked to:

- Take a test twice a week (every 3 or 4 days apart).
- Report every result to NHS Test and Trace on the same day you take the test.
- You should report your results [online](#) or by calling the phone number in your test kit's instructions. You need to do this as soon as you get the result, even if you test negative.
- If you have a problem with your test kit, call 119 or report the problem online [here](#).

If you get a positive result or if you have coronavirus symptoms

You should tell the college and:

- Self-isolate immediately.
- Get a PCR test to confirm the result.
- Follow the [stay-at-home guidance](#) for households with possible coronavirus infection.

A negative result

This means the test did not find signs of coronavirus. It does not guarantee that you do not have coronavirus, so please keep following all coronavirus advice including:

- Regular handwashing.
- Social distancing.
- Wearing a face covering where recommended.
