in all areas with a 'Strong'
contribution to local Skills!*

TECHNICAL & PROFESSIONAL

Construction - Ore Valley

Brickwork

If you're thinking of a career in construction, start your journey with this taster session. Get an introduction to bricklaying and take part in a practical session on drybonding.

Carpentry

During this carpentry taster session, you'll get an introduction to carpentry and discover more about the construction industry!

Electrical

Take part in this hands-on Electrical taster session and try out simple electrical techniques using industry-standard tools and methods. Learn the basics of the trade and get a taste of what a career in electrical work involves.

Painting & Decorating

In this Decorative Painting taster session, you'll try your hand at basic paint effects, including rag rolling and sponge stippling, and get a taste of the skills used in the trade.

Plumbing

During this Plumbing taster session, you'll take part in hands-on plumbing skills challenges and discover how drinking water travels from source to your home.

Engineering - Ore Valley

Engineering

If you enjoy learning how things work, join this Engineering taster session. Tour our workshop, explore our fantastic equipment including welding bays, and take part in a hands-on activity to get an insight into the world of Engineering.

IT & Digital - Ore Valley

Computing & IT

In this Computing and IT taster session, you'll build your own web-based app using real programming languages used by professional developers. Get a first-hand look at what studying Computing and IT is really like!

Cyber Security

In this Cyber Security and Networking taster session, you'll build and secure your own computer network using Linux, real networking equipment, and cyber security tools used by professionals.

ESports

Compete in a live Esports tournament and try our F1 racing simulator in this taster session to get a real taste of what it's like to study on our Esports course.

Film Production

Step into the world of filmmaking in this taster session and get hands-on with real film equipment and professional tools used by filmmakers.

Games Development

Get hands-on in this Video Game Development taster session, creating your own game using the latest industry-standard technology and tools.

Motor Vehicle - Ore Valley

Motor Vehicle

Come and meet the Motor Vehicle team in this taster session and take part in our exciting Pit Stop Challenge. Test your skills against the clock and carry out essential vehicle checks - do you have what it takes to beat the time? Please note: Our Motor Vehicle workshops are currently under development and will be available to view at Open Events in October 2026. This taster session will take place in our Construction workshops.
