

 What is a  College  Bubble?

 When  I  go back to  college  my  Teacher  said  I  am going

to be  in a  Bubble

 This is  strange - but it  doesn't mean a  real  bubble!

 At  college  we are  going to  stay in  the  same  small

 group of  people  all  day

 We  will  stay together to  work,  play and  eat  our

 snacks and  lunch.

 We  will  use  the same  toilet  and  sinks  as the people

 in  our  group.

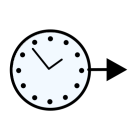

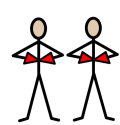

It is  called  a bubble  because  we  are  protected  and  safe  by

 not  doing  things  with other  groups.

 =   a bubble  but  not  a  real  one.

It is  good  to  remember  that  washing our hands,  staying  away from

 other  bubbles  (groups  of  students)  and  not  touching  our

 face  will  keep  us  safe.
