

Industry Placements

All subject areas from vocational subjects such as Brickwork and Hairdressing, to A-Level subjects such as Law and Business, include an industry placement.

Industry experience comes in many forms, for example Law students will have the chance to compete in the Bar National Mock Trial Competition and Health & Social Care

You have the opportunity to work in Seville!

students will spend a week in placements at hospitals, nursing homes, primary schools or day care centres.

Our campus has helpful staff on hand to provide information on employability skills and industry placement opportunities. Tutors also have industry contacts and create industry experiences and opportunities for keen students. They encourage you to source

and secure your own placement in a business or industry you are interested in.

We are here to help you through the whole process. If you can't secure a placement we can help.

We work with many different businesses and will help you contact and secure your place.

We will help you to get industry placements

Working abroad

In 2017, we secured funding to enable our students to undertake a four-week industry experience trip in Seville, Spain. Ever since, we have been sending groups of

students from across our college curriculum to the sunny Spanish city to work as chefs in tapas bars, reception staff in hotels, and giving tourists guided Segway tours of the city.

Industry Placements are an integral part of our courses. This hands-on experience helps to bring your learning to life and demonstrates to employers that you are able to carry out the tasks that you're being taught in class. We work with some amazing local and national employers.

“

Work placements bring the theories we learn in class to life and enable us to use and apply them in real-life experiences.

”

A big thank you to all of the businesses

“ The Travel and Tourism courses are fantastic. The students that we’ve worked with came with a tremendous amount of knowledge about the tourism industry, and were a welcome addition to the team during busy periods. We recognise the importance and relevance of industry experience, so we are proud to work with the college. ”
