

These guidance notes should be read in conjunction with application and the 2024-2025 Student Support Fund Policy and Procedures, which can be obtained from our website or Student Services. The College is given specific allocations of funding to provide assistance to learners studying on a course funded by the Education & Skills Funding Agency. Learners should apply early as the funds do run out. Applications will be dealt with on a strict date received basis and this is dependent on all applications being fully completed with all the required evidence. Incomplete applications will be marked as incomplete/awaiting evidence on the online portal.

Please note that eligibility does not mean that an award will be made as the funds are limited and will close when fully allocated. No guarantee can be given that funds will be available when you apply. If there is a high demand on the funds, awards may be made at a reduced rate. Subsequent payments (where paid) may be at a lower rate if there is a high demand.

Funds will only be released once learners have enrolled and started their course. Initial awards will normally be made within 4 weeks of the course start date or from date of receipt of application whichever is the latter. For loan students, awards will only be made once an approved loan is in place and student has passed the loan liability point (2 weeks).

Please be aware that if learners leave their course early, the college may ask for the return of any payments made or kit/uniform that has been purchased with the funds.

Learners on 2-year courses will need to re-apply for subsequent years and criteria and awards may differ.
