

East Sussex College students industry placements in Seville, Spain

Industry placements are an integral part of our courses. This hands on experience helps to bring your learning to life and demonstrates to employers that you are able to carry out the tasks that you're being taught in class. We work with some amazing local and national employers.

## Industry Placements

All subject areas include an industry placement from vocational subjects such as Brickwork and Hairdressing, to subjects such Business.

Industry experience comes in many forms, for example, Health & Social Care students will work in hospitals, nursing homes, primary schools or day care centres.

Our campuses have helpful staff on hand to provide information on employability skills and work experience opportunities. Teachers also have industry contacts and will create work experience opportunities for keen students.

“

Industry placements bring the theories we learn in class to life and enable students to use and apply practical real life experiences

”

We aim to ensure that each of our students is able to complete at least one industry placement. This hands on experience helps to bring your learning to life and demonstrates to employers that you are able to carry out the tasks that you're being taught in class.

## Working abroad    Type of course

In 2017, we secured funding to enable our students to undertake a four-week industry placement trip to Seville, Spain. Ever since, we

**You have the opportunity to work in Seville!**

have been sending groups of students from across our college curriculum to the sunny Spanish city to work as chefs in tapas bars, reception staff in hotels, and giving tourist guided Segway tours of the city.

### **A-Level -**

Extended time for work industry placements, at least one week.

### **T-Level -**

45 day work placement

### **Vocational Course -**

Extended time for industry placements and opportunity to work on Live briefs from clients in the creative hub.

## We will help you get an industry placement

We encourage you to source and secure your own placement in a business or industry you are interested in.

If you can't secure a placement we can help. We work with many different businesses and will help you contact and secure your place.

“

The Travel and Tourism courses are fantastic. The students that we've worked with came with a tremendous amount of knowledge about the tourism industry, and were a welcomed addition to the team during busy periods. We recognise the importance and relevance of work experience, so we are proud to work with the college.
